Swift Publisher
For making ads, brochures,
Christmas cards, business cards,
magazine covers, door hangers,
certificates, etc.

Swift Publisher! Easy to use and
intuitive to learn & use.

Guy built all the following while
we watched and learned.

CAR FOR SALE

Buick Park Avenue

This was an actual ad that I made in order to try and sell my mother's car. Can't say the ad helped but did sell it.

\$3,500.00

2001

Model : Buick Park Avenue

Year: 2001

Color: Pearl Red

Mileage: 64,000 miles

South of Divide, Colorado

WSW of Woodland Park

This was a demon on how to insert a map from the insert tool bar at the top. You get to type the address and it will go there. You can change the size or type and then add arrows or text etc just as if it were a picture that you had imported.

This was an example of Inserting a custom design from the Insert - Image - Generate Random selections on the tool bar.

Lots of things to experiment with there. You can then add a picture or clip art.

The app has no limit to the layers that you can have.

CERTIFICATE OF MEMBERSHIP

This was a basic certificate taken from the resource panel and modified as needed.

I created the "Off On A Tangent" logo as a gag gift for Mark.

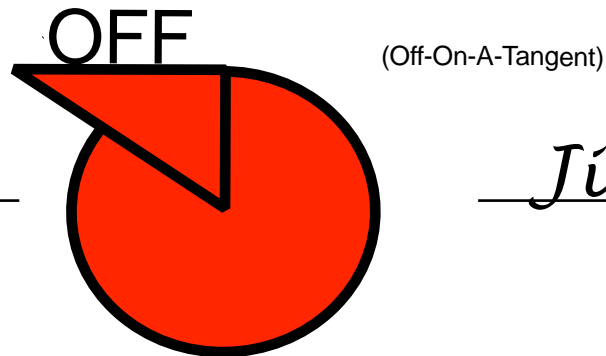

this is to certify that

Mark "T" Pimentel

has been designated a Charter Member of the
"Off-On-A-Tangent Club"
on this 14th day of February, 2022

Let it be known that that his "tangential" forays, i.e "diverging from a previous course or line," most notably during the Saturday SIGs, have led to much learning.

Let it also be known that it is obvious that Mark thrives on sharing this knowledge. His enthusiasm and service to our group is very much appreciated.
